// I've been working with Octane for over seven years. We have put the Octane products through our stringent R&D process because we are very particular with the equipment we bring into our clubs, and Octane is the winner according to members, trainers and our service techs. Service is truly what makes Octane rise above the competition; they have the best service record in the industry. Even though it is rarely needed, when a problem does arise, they fix it immediately, so we have minimal down time."
